EXPERIENCE

10.2021 - 01.2022

Inventory Manager

Fullstack developer (MERN stack)

A product stock manager focused on improving how to manage the back up stock of the existing APP, the main objective is to reduce the amount of missing or misplaced items leading to a potential swipe(refund) and the consequential loss of money for the company.

Uses two custom hooks to manage states and dispatchs of actions (State / Reducer)
Fun and mobile responsive.

07.2021 - 10.2021

Mern Tasks

FullStack devloeper (MERNStack)

a To-do application with Json web tokens, user authentication through it's own API rest, deployed on netlify (frontend) and heroku (backend).
